Mounting system manufacturer

COMPANY

IRFTS is an engineering and research company focused on solar technologies and applications.

Based in France, IRFTS aims at easing the access to the solar technologies by inventing and manufacturing new solar systems for roofs, ground mounted or stand alone systems worldwide.

IRFTS is the inventor of EASY ROOF concept, a revolutionary in roof mounting system.

SERVICES

IRFTS supports you :

- A strong technological added-value with an integrated Research Department.
- A technical and training backup provided by a dedicated team to train, assist and monitor your installations.
- A service based on the values of proximity, reactivity, listening, skill and product quality relayed by our network of distributors and partners all around the world.
- A culture of the "Product Performance » founded on a French manufacturing, tests and certifications.

PRODUCTS

EASY ROOF EVOLUTION:

- In-roof mounting system for PV modules with no seal, no cut.
- Lay out: Portrait, landscape, pyramid assembly and miscellaneous forms.
- Advantageous design can answer to all kinds of roofs even distorted with a slope from 10° to 50°.
- Made in France

EASY ROOF solution for standard VELUX® roof window:

IRFTS - EASY ROOF and VELUX®, the global specialist in roof window link together to offer you THE solution in photovoltaic integration.

ROOF SOLUTION FOR ROOF WINDOW VELUX® is:

- Quick and easy to install.
- Reliability: The new VELUX® generation fits 100% into the EASY ROOF SOLUTION for roof windows
- Modularity: Install the window where you want without additional work
- Compatibility certified with standard VELUX® roof windows MK06 (780*1180 mm) and MK08 (780*1400 mm).
- Made in France
