HIGH QUALITY PHOTOVOLTAIC MODULES MANUFACTURER

COMPANY

RECOM-SILLIA is a major solar module manufacturing company based in France, with a yearly capacity of 200 MW. RECOM-SILLIA produces PV-Modules perfectly adapted for ground-mounting PV-plants and roof installations, in different sizes / technologies (60 or 72 cells with either poly- or mono-crystalline cells), different efficiencies, colors of frame or backsheets.

RECOM-SILLIA has supplied some of the most prominent solar projects in France belonging to the biggest players of the local market, such as EDF, URBASOLAR, TENERGIE, GDF SUEZ, EDF, RES, CNR, REXEL, LANGA, etc.

The company's mission – to advocate global commitment to social and environmental considerations, promote the benefits of solar power and the switch to cleaner, safer and affordable energy – made RECOM-SILLIA the preferred choice for high efficiency PV modules worldwide.

RECOM-SILLIA was awarded with the "Top 2018 PV Brand" seal by EuPD Research, Europe's leading sustainability research firm.

RECOM-SILLIA is part of RECOM Group, one of the largest PV module manufacturer in Europe with production facilities in France and Italy: annual production capacity of up to 1.5GW and sales in more than 85 countries around the world.

SERVICES

RECOM-SILLIA is a manufacturer of solar modules, with production facilities based in Lannion. European engineering & meticulous quality control procedures at every phase of production, fully-automated equipment and use of Grade A materials made RECOM-SILLIA the preferred choice for high efficiency PV modules not only in France, but all over Europe.

PRODUCTS

QUALITY

- Certification ISO 9001
- Compliance to "Certisolis trade mark"

PRODUCT

- Power sorting -0/+5 Wp
- IEC 61215 and 61730 parts I & II
- Mechanical resistance: 5400 pa
- Hail resistance: Class 4

ENVIRONMENT

- Optimized carbon footprint
- PV-Cycle member
- ISO 18001 & ISO 14001

COMPONENTS

- Certified suppliers
- Exigent cells selection (Europe & Asia)
- Anti-reflective coated glass, MC4 connectors

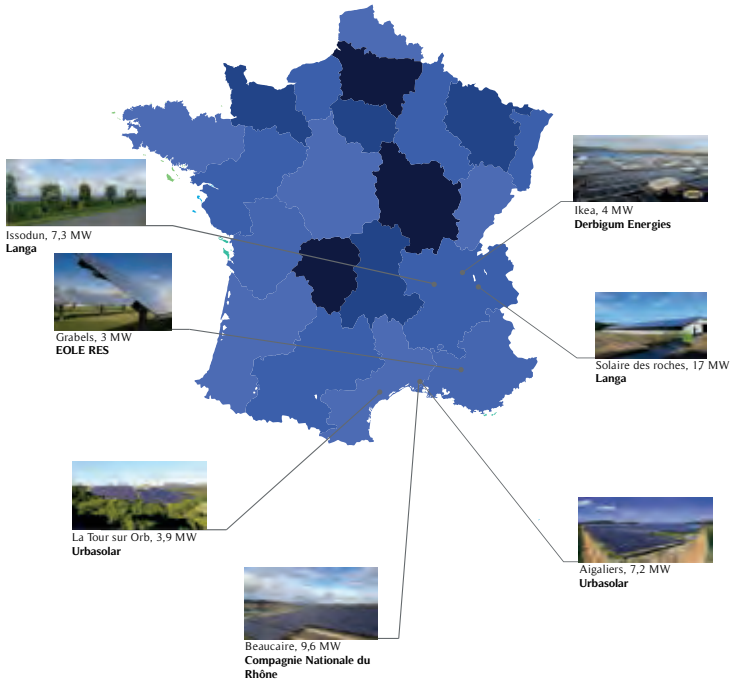

WARRANTY

- Product: 12 years
- Power: 90,5% at 10 years; 81.4% at 25 years

EFFICIENCY

- Classes 270 to 365 Wp
- Multi- or Monocrystallines cells
- 60 or 72 cells sized module
