EUROPEAN PRODUCER OF HIGH QUALITY PV PANELS 20 YEARS PRODUCT WARRANTY!

COMPANY

Established in Alsace, France, VOLTEC SOLAR is a manufacturer of very high quality solar panels. The use of best-quality components and an ultramodern production line, where our employees' technical expertise can be put to good use, means, VOLTEC SOLAR is able to leverage the many advantages of being located in Alsace: manufacturing excellence, competitive pricing and positioned in the heart of Europe.

VOLTEC SOLAR was founded by a team of shareholders with substantial experience in manufacturing and international sales, which they have used to tackle an ambitious new challenge - to make VOLTEC SOLAR into a European benchmark for the design and manufacture of solar panels.

The company was created in December 2009, with production starting on March 2010 in state-of-the-art facilities and with a dedicated R&D team. With financial backing amounting to tens of millions of Euros, VOLTEC SOLAR concentrates all their tangible and human resources to a progressive and sustainable development with the goal of multiplication for the years to come.
